Shubham Sharma

Melbourne, Vic | msg2shubh@gmail.com | +61 432906208 | GitHub Profile | LinkedIn Profile

Summary

Junior Full-Stack Software Developer with hands-on experience building and deploying real-world applications across startup environments. Strong background in React, Node.js, Python, APIs, cloud deployment, and AI-integrated systems. Experienced in working with cross-functional teams to deliver scalable features, backend services, and data-driven solutions. Known for clean code, strong documentation, and rapid adaptability in fast-paced product teams.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL
Frontend: React.js, Next.js, HTML, CSS, Tailwind
Backend: Node.js, Express.js, REST APIs, FastAPI
AI/ML: ML model integration, RAG workflows, data pipelines
Cloud & DevOps: AWS (Certified), Azure, Docker, CI/CD basics

Professional Experience

Philotimo Global, Melbourne Jun 2025 – Sep 2025
Software Engineer (Intern → Contract)

- Worked in a product-focused startup building AI-powered financial and backend systems.
- Contributed to systems designed for automated financial insights and AI-assisted decision support
- Developed backend APIs and services using Python and JavaScript, supporting core product functionality
- Built an MCP-based chatbot integrated with Xero, enabling contextual financial responses

Aubot, Melbourne Feb 2024 – May 2024
Frontend Developer (Internship)

- Built responsive user interfaces using React and modern UI practices
- Collaborated with designers and backend engineers to deliver product features
- Improved UI performance and component reusability

Inverloch Bike Hire, Melbourne Dec 2023 – Mar 2024
Full-Stack Developer (Internship)

- Developed and maintained web features using React and backend services
- Improved booking workflows and user experience
- Worked in a small team delivering iterative improvements

Manatzura, Melbourne Feb 2023 – Nov 2023
Frontend Developer (Contract)

- Developed responsive Flutter UIs for IoT dashboards, integrating AWS services, improved data refresh rates by 15%
- Led user acceptance testing sessions—compiled feedback reports that streamlined UI revisions
- Collaborated on backend designs using Node.js and REST APIs for real-time sensor data

Projects

RizzBot – AI Chatbot Playground | *React, Node.js, TypeScript, GitHub Actions*

- MERN stack app allowing users to switch between AI models (Gemini Flash 2.0, Llama 3.1) in real time
- Implemented JWT-based auth and secure session management, built React frontend with Context API and MUI
  GitHub | Live Demo

Weather Prediction and Visualization App | *React.js, FastAPI, D3.js*

- Full-stack app: fetches OpenWeatherMap data, applies ML model (Scikit-learn) to predict Tmin/Tmax
- Visualized trends with D3.js charts, styled with Tailwind CSS
- Links: GitHub | Live Demo

AI Financial Forecasting System | *Python, Flask, Azure, Docker*

- Designed software to model financial projections across time intervals
- Integrated ML models to predict business metrics, connected structured financial data into automated forecast pipelines
- Links: GitHub | Live Demo

Certifications

- AWS Certified Solutions Architect – Associate (Dec 2024 – Dec 2027)
- AWS Certified Cloud Practitioner (Jan 2024 – Jan 2027)
- Full Stack Web Development Certificate (100xDevs, Jul 2024)
- CCNA: Switching, Routing and Wireless Essentials (Cisco Networking Academy, Jun 2022)

Education

Swinburne University of Technology, Hawthorn Aug 2020 – July 2024
Bachelor of Computer Science, majoring in Software Development
